FAZEELA JAMAL

Cybersecurity Analyst & Information Security Officer ISO 27001 & ISO 42001 Certified Cybersecurity GRC & Information Security Audit Specialist | Risk Management | Compliance | Internal Controls | Karachi, Pakistan | +92 337-3125405 | Fazeelajamal03@gmail.com - www.linkedin.com/in/fazeela-jamal-553619200

Professional Summary

Highly skilled Information Security & Cybersecurity Professional with 7+ years of international experience in technical and compliance domains. Specialized in SOC operations, threat detection, vulnerability assessment, penetration testing, compliance management, and digital forensics. Proven expertise in leading risk assessments, audit readiness, and managing ISMS frameworks, including ISO 27001, NIST CSF, ISO 31000, HIPAA, and GDPR. Adept at coordinating multi-team security assurance processes, driving proactive risk management, monitoring security control effectiveness, and embedding secure by design principles into business and technical workflows, aligning with industry best practices and organizational objectives. Strong communicator with experience in executive reporting, cross-functional stakeholder engagement, and global consulting. Open to relocation in Europe, Australia, New Zealand, and the Middle East.

Education

Bachelor of Science in Computer Science (BSCS) - Karachi Institute of Engineering & Technology - Graduated (2025)

ServiceNow, Core Competencies & Skills

Security Governance & Compliance:	ISO 27001, NIST CSF, ISO 31000, GDPR, HIPAA, FAIR, PCI-DSS, Critical Thinking, ED&A Portfolio Assurance
SOC & Threat Operations:	SIEM (Splunk, Wazuh, QRadar), EDR, XDR, IDS/IPS, Incident Response, Alert Triage Risk &
Audit Management:	Risk Quantification, Gap Analysis, Audit Readiness, GRC Tools (Archer), JIRA Offensive
Security	Penetration Testing, Bug Bounty Hunting, Vulnerability Scanning, Exploit Analysis
Defensive Security	Threat Detection, Patch Management, Endpoint Security, Network Hardening
Technical Expertise:	Linux, Nmap, Metasploit, Burp Suite, Wireshark, Python, Active Directory, TCP/IP
Cloud & Infrastructure Security:	Oracle Cloud, AWS, Azure, Cloud Risk Assessment, Network Security Controls
Compliance & Privacy:	GDPR, Data Protection, ROPA, DPIA, Privacy by Design, Data Minimization,
Security Operations:	Incident Response, Threat Analysis, SOC Operations, SIEM Monitoring,
Portfolio Assurance & Risk:	Coordinate & oversee security assurance activities, integrate the specialist team outputs, track and remediate control gaps, monitor control effectiveness,
Business & Advisory:	Customer Advisory, Security Awareness Training, Pre-sales & post-sale Support, Stakeholder Management, PoC, Rfp, Email Etiquette, Client Handling, CRM Strategies

Work Experience

Cybersecurity Specialist | GDPR & GRC Security Operations - Exact Solution Electronics *Jan 2026 – Ongoing | Poland* (**Remote**)

- Implemented GDPR security controls ensuring compliance with Articles 5, 25, 30, & 32 using risk-based measures.
- Supported DPIAs and maintained ROPA to meet GDPR regulatory requirements.
- Secured personal data through access control, encryption, logging, and monitoring.
- Conducted VAPT on applications and infrastructure to identify data protection risks.
- Investigated security incidents and data breaches, supporting incident response and compliance readiness.
- Enforced least privilege, MFA, and IAM to reduce insider and external threats.
- Translated GDPR requirements into technical controls with legal and IT teams.
- Supported BCP/DR planning to ensure system availability and data integrity.
- Aligned security operations with ISO 27001, NIST, and CIS Controls.

ICT & Cybersecurity Solution Architect - Dico-Tech Corvit *Feb 2024 – Dec 2025 | Doha, Qatar* **(Hybrid)**

- Performed business impact analyses (IT/OT/Cloud) & cyber risk quantification using FAIR & ISO 27001, GDPR, ISO 9001 methods.
- Designed technical and functional mitigation plans, monitoring risk remediation progress.
- Delivered cybersecurity awareness sessions and developed security documentation for SMEs.
- Supported clients during ISO 27001 and GDPR audit cycles, RFP, and PoC, ensuring compliance readiness.

Information Security Officer - XTOL Pvt. Corp. *Feb 2022 - Jan 2024 | Karachi, Pakistan* **(Onsite)**

- Managed SOC operations and incident response using Splunk, Wazuh, IDS/IPS, and EDR solutions.
- Conducted risk assessments and defined mitigation plans aligned with ISO 27001 and NIST CSF.
- Executed penetration tests and vulnerability management using Nmap, Metasploit, and Burp Suite.
- Supported audit readiness and compliance for clients in the finance and IT sectors.
- Coordinated and integrated outputs from multiple specialist cybersecurity teams, tracked and remediated control gaps, and ensured alignment with organizational priorities and compliance requirements.
- Collaborated with business teams for security improvement, cross-selling, and client engagement.
- Prepared audit reports, risk registers, and presented findings to senior management.
- Supported clients during ISO 27001 and GDPR audit cycles, RFP, and PoC, ensuring compliance readiness.

Junior Cyber Security Analyst - CyberRace Institute *Oct 2021 - Jan 2022 | Karachi, Pakistan*

- Focused on monitoring SIEM alerts, investigating phishing attempt.
- Conducted offensive security assessments and web application penetration tests.
- Contributed to risk assessments, compliance mapping (ISO 27001, NIST, PCI DSS), & security awareness initiatives. **(On-site)**
- Using SQL injections, FTP exploitation, and reconnaissance techniques.
- Performed vulnerability scanning and exploit validation via Burp Suite, Nmap, and Metasploit.
- Delivered technical documentation and recommendations for security hardening

Offensive Security Intern - CyberRace Institute *Aug 2020 - Sep 2021 | Karachi, Pakistan*

- Supported ethical hacking labs, phishing detection, and password cracking (Rainbow tables). **(Hybrid)**
- Assisted in data gathering, Google Dorking, and bug bounty analysis for web systems.

Certifications & Training

- ISO/IEC 27001:2022 INFO-SEC ASSOCIATE™ - Skill Front (Oct 22, 2024)
- ISO 42001 Lead Auditor & AI Governance - Mastermind Assurance
- Oracle Cloud Infrastructure Multicloud Architect Professional - (2025)
- Oracle Cloud Infrastructure Architect Associate - Oracle (2025)
- Vulnerability Management, Detection, & Response (VMDR) - Qualys (2024)
- CASP+: Governance, Risk, and Compliance - Cybrary (Sep 23, 2024)
- Defensive Security & Cyber Risk - Cybrary (2024)
- Defensive Security Operations - Cybrary (Jul 26, 2024)
- Agile Project Management - HP LIFE (Sep 12, 2024)
- CompTIA Security+ (SY0-701) – Ongoing
- ISO/IEC 27001:2022 Lead Auditor - Mastermind Assurance
- Oracle Cloud Infrastructure Certified Networking Professional - (2025)
- Customer Relationship Management - HPLIFE (Jul 23, 2024)
- Business Email - HPLIFE (2024)
- Security Ticketing - Cybrary (Sep 22, 2024)
- Cybersecurity Awareness - HPLIFE (Oct 2, 2024)
- IT for Business Success - HP LIFE (Oct 15, 2024)
- Sales Forecasting - HPLIFE (Sep 23, 2024)
- Business Communications - HPLIFE (2024)
- Data Science & Analytics - HPLIFE (Sep 23, 2024)
- CISM – Ongoing
- CISSP - Ongoing

Projects

Active Directory Home Lab (2026 – Ongoing)

- Built a simulated enterprise domain integrating **Splunk and Atomic Red Team** telemetry for SIEM analysis.

Petal-o-BOT Detection (2024)

- Developed a **Python-based ML model** for image recognition and secure e-commerce data handling.

Language

- English
- Urdu

Additional Strengths

- Experienced in risk quantification, security consulting, and technical advisory
- Strong communication and client engagement capabilities
- Cross-cultural collaboration and international consulting exposure
- Eligible for Security Clearance for defense or critical infrastructure projects
- Willing to relocate or travel globally
